

PERKSS PARTNER MANIFESTO

Empowering the UK
Business Ecosystem

SOVEREIGN TECH • COMMISSIONFREE • HUMAN SUPPORT

The End of the "Success Tax"

The UK merchant landscape has been dominated for too long by legacy providers who penalize growth. Every time a business succeeds, these providers take a larger cut through opaque commissions, hidden fees, and data silos.

Perkss is built on a different logic: The logic of freedom.

THE ANATOMY OF A SUCCESS TAX

Before Perkss, growth meant accepting parasitic overheads. Legacy platforms thrive on

Predatory Commissions

Fees ranging from 1.75% to 3.5% that eat directly into net profit.

Gated Intelligence

Data silos that prevent merchants from truly understanding their customer base.

Forced Lock-ins

36-month non-negotiable contracts that trap merchants in aging tech.

Shadow Costs

Paid-only support and rental fees for essential hardware.

THE CENTERED LOGIC FRAMEWORK

As a Perkss Partner, you provide a unified ecosystem that unifies three core pillars of business intelligence, allowing clients to scale on autopilot

Operational Command

Commission-free ordering, automated kitchen flows, and stock engineering.

Financial Fluidity

Instant digital wallets, unified payment ledgers, and remote billing.

Growth Automation (The Marketing Cloud)

Automated "Gratitude Loops," NFC loyalty, and CRM-driven re-engagement.

This Manifesto is our commitment to transparency, velocity, and institutional-grade support. We don't just provide an EPOS, we provide the sovereign infrastructure for a new era of UK entrepreneurship.

The Five Sovereignties

These are the non-negotiable pillars of the Perkss Ecosystem. They define why we win against legacy giants.

1. 0% Commission Strategy

We eliminate the success tax. Your clients keep 100% of their margins, creating immediate trust and long-term loyalty toward you as their advisor.

2. Full Data Ownership

Knowledge is a right, not a subscription. We ensure total data sovereignty—un-gated, un-siloed, and fully accessible to you and your clients.

3. 24/7 Human-to-Human Support

Technology never sleeps. Our UK-based experts are available 24/7. When a client needs help at 10 PM on a Saturday, a human answers the phone.

4. No Hidden Contracts

Partnerships are built on performance, not legal traps. We operate with zero hidden clauses and no predatory long-term lock-ins.

5. High-Velocity Onboarding

Time is capital. We move from initial briefing to live, commission-free transactions in 24-72 hours, ensuring rapid time-to-value.

A Path to Recurring Prosperity

We offer three distinct tracks designed for professionals who want to lead the digital transformation of the UK business landscape.

The Strategic Referrer

Ideal for Accountants and Coaches. Protect your clients' margins and earn high upfront bounties plus lifetime recurring success fees.

The Certified Consultant

For Agencies and Advisors. Manage client strategies through the Perkss Partner Portal with 20-30% recurring SaaS revenue share. Access deep marketing intelligence for your clients.

The Authorized Reseller

For IT and Hardware Professionals. Deploy full-stack ecosystem logic with wholesale margins and maximum revenue share. Lead the installation of institutional-grade infrastructure.
